WILLIAMS' ADDITION,

South of Creighton avenue, the following streets: Harrison, Webster, Taber and Suttenfield, are 60 feet in width and are "parked," as is customary in many other cities east and west. With the regular six feet walk, nine feet more are taken from the street, fifteen feet on each side, for grass plat and trees. This is called "parking" the street. Which still remains amply wide for carriages and wagons. Where streets are thus "parked" fences are usually considered a superflous expense and the roadway is more easily kept rounded up in good condition for driving.

NO DISLOYALTY!

A Prominent Republican and ex-Union Soldier Gives His Version of the Jeff Davis Demonstration.

NASHVILLE, Tenn., Nov. 3.—Mr. G. W. Gifford, a gentleman well known to the business men of Nashville and Tennessee, was present at the reunion of the ex-confederates at Macon, Ga., at which President Davis attended, and stood within a few feet of him during the scenes of the review, of which the northern republican press have had so much to say. Mr. Gifford located in Nasuville at the close of the war and has been a member of the largest wholesale firm in the city, McAllister & Coat. At present he is the general agent for Tennessee and southern Kentucky of several large manufacturing concerns. No citizen is more highly respected. Mr. Gifford is a pronounced republican and an ex-union soldier, and is a member in good standing of the George H. Thomas post No. 1, G. A. R.

He has just returned from Georgia and said that he felt it his duty as an American citizen to protest against the wrong which is being done the people of the south, and more particularly those in Georgia, by the publications which gave sensational accounts of the conduct of the ex-confederates at the reunion and also the conduct of Mr. Davis. He thought there were overwhelming evidences of a loyalty in the decorations and that the ex-confederates only paid a tender tribute to their nearly dying ex-president.

Amer Green's Story Utterly False.

LOGANSPORT, Ind., Nov. 3.—Deputy Sheriff Buck Stanley, of this city, received a letter yesterday from Deputy Sheriff R. H. Tucker, of Fort Worth, Texas, stating that said Tucker had been in office eight years, and a resident of Fort Worth thirty-two years, and that there had never been any Sam Payne or Luella Payne nee Merritt in that city. The story of Mrs. Orr, telegraphed to the St. Louis *Globe-Democrat*, about one Sam Payne, etc., was made up out of the whole cloth by Fort Worth reporters, as they now confess.

THE "WHITE CAPS!"

Continue to Commit Their Outrages in Southern Indiana and Terrorize the County Officials.

The outlaws visited the house of John Amy, of Harrison county, and in his presence stripped his wife and administered forty lashes laid on her bare back. It is said the county officials are thoroughly terrorized. The grand jury, with proofs of the identity of the men, who outraged the family, refused to present a bill against them.

THE ANARCHISTS.

The Governor will not Talk About Their Case.

SPRINGFIELD, Nov. 3.—Absolutely nothing can be said as to the probable action of the governor in the anarchists' case, as his excellency declines to say anything on the subject. The decision of the United States supreme court was made known to him shortly before noon yesterday and his features at once assumed an expression of real gravity. He received a number of letters and petitions on the subject and it is asserted three Chicago ladies visited him in the interest of the condemned men. The feeling is almost universal here that he will not interfere with the sentence of the court, that the conditions are such he cannot. There is a bare possibility he may interpose clemency in the interest of Fielden and Schwab, though he said nothing to indicate even this.

CHICAGO, 3:00 p. m., Nov. 3.—Two full companies of policemen are now quartered in the county jail, near the anarchists' cells. There are fifty-four men in all, each armed with a Winchester rifle. These men will remain in the building until after the event on the 11th instant.

He took his seat near the door, and soon after was discovered with a pistol in his hand, snapping it, apparently for fun, thinking it was not loaded.

He refused the request of Mr. Jenkins to put the revolver away, and snapped it again at Jenkins. It exploded, carrying the bullet into the abdomen of Jenkins, who soon afterward expired. Jenkins was the father of the bride. Lepp is a German, and all his neighbors say, good-natured. He explains that he did not know it was loaded.

The object of garrisoning the post is to protect government property during the winter, and prepare for the beginning of work early in the spring. The troops will be available in case there should be any anarchist riots in Chicago, but it is stated at the war department this is not the primary cause for ordering them there at present.

A BIG HUNT!

With But Little Game, is the Story Our Adventurer is Forced to Tell This Evening.

The directors of the Pennington works held a business meeting last night.

Arrangements are being made for improving the steam heating apparatus in the county jail.

Henry Heine, the boiler maker in the Pittsburg shops, is detained at home on account of the serious sickness of his wife.

C. L. Daseler, the clerk at the Pittsburg car shops, is off duty to-day at the bedside of his sister, who is not expected to live.

M. Hovey, formerly night depot master of the Lake Shore depot, Toledo, has been appointed night yardmaster of the Wabash road, at that place.

John Lohmeyer, the molder in the Bass foundry, who has been absent from duty for a week resumed work in the moulding department this morning.

R. Hardendorf, an employe in the Pennsylvania company's yards in this city, left yesterday for Oberlin, Kas., to spend the winter with a daughter living there.

The railroads are not doing a very rushing business just now as far as passenger traffic is concerned. Travel is light and the ticket agents are having a little rest.

Frank Merrill, a moulder in the Bass works, is making arrangements for a two weeks' absence at Upper Sandusky during the holidays. Frank has a girl at that place, and, of course, anticipates a pleasant time.

Conductor Charles Doudrick still remains at the St. Joseph hospital and is slowly recovering from his injuries. The Fred Graffe minstrels and the Fort Wayne rifles will tender him a benefit at Library hall November 21 and 22.

This morning while some men were unloading a car load of wood on the Wabash track near the Olds works a red squirrel jumped from the car and took refuge in the big lumber piles near by. Some of the expert hunters of that esestablishment will undoubtedly have his squirrelship for dinner to-morrow.

The new car house of the Citizen's street railway will be finished next week. It will have a capacity for storing thirty cars and will give the company stable room for seventy horses. Three of the fifteen new and elegant cars are ready for shipment from New York, and will be received when the car house is ready.

The Pennsylvania company's shops, in this city, have just commenced work on twelve new locomotives. The work on thirteen new locomotives has just been finished, and they will be sent out into the freight service on this division of the road in a few days. Business is brisk in the Pittsburg shops, and night work is a common thing in every department of the works.

H. M. Stiver and Charles Crouse, two of the most popular brakemen on the Nickel Plate, have both suffered injuries in the line of duty during the last few days. Mr. Stiver had his hand crushed while making a coupling at Leipsic, and Mr. Crouse had his head badly bruised by being caught between the engine and a car at Fostoria. While both are quite painfully injured, they will be ready for duty again in a few days.

A general strike of all the switchmen in Omaha is threatened on account of the unpopularity of Yardmasters Meehan and Tighe, of the Union Pacific. The switchmen allege that those men are habitual drunkards and grossly abusive to the men working under them. Grand Master Monaghan, of the Switchmen's Mutual Aid society, has had a conference with Supt. Blickensderger, and submitted an ultimatum demanding the discharge of the obnoxious yardmasters.

A traveler reports that about 5 p. m. on Tuesday the engineer of the west bound passenger train running near Spokane Falls, in Washington territory, saw a large pine tree lying across the track ahead. The discovery being made too late to allow stoppage of the train the engineer turned on full steam and the engine cut though the tree without accident and with such a slight jarring as to be imperceptable to the passengers. The informant avers that the stick was two feet in diameter and was parted with a swash the width of the trucks.

The most important business matter acted on during the last day's session of the Brotherhood of Locomotive Engineers at Chicago was the proposition to create a sinking fund for the pensioning of veteran engineers of sixty-five years of age or over, who have become disabled or infirm in the service. It was the recommendation of the committee that this matter be referred to the various local divisions to be voted on directly by every member of the brotherhood. This plan was accordingly adopted by the convention and the vote of the brotherhood will be taken as provided for, and determine in this manner the action of next year's convention with respect to making due provision for the pension system, if it should be adopted, as it likely will be.

Do not for a moment let your confidence betray you into supposing yourself incapable of mistake. It is indeed a serious blunder to refuse to take Dr. Bull's Cough Syrup when you even suspect you have taken cold.

THE destructive habits of rabbits are well known. In Australia they abound. When a servant enters a situation she requires a promise that at least one day in the week she shall not be obliged to eat rabbits. In three years 18,000,000 of these rabbits were destroyed, and a bounty of $120,000 has been paid out for their destruction.

THE Philadelphia *North American*, published by Morton McMichael's sons, has entered the 104th year of its existence as a daily newspaper. Its very first parent was the *Pennsylvania Packet*, beginning in 1771. The *North American* is the offspring of two marriages, one uniting the *Packet* and *Advertiser*, and the other the *Advertiser* and the *United States Gazette.*

IN Guadalajara, Mexico, the Indians furnished much sport when the law making compulsory the wearing of trousers by the men went into effect recently. They all walked very awkwardly; some were greatly bewildered by the pockets, and many donned the garment wrong side before. After considerable grumbling they accepted the new order of things good-humoredly.

THE stage coach that was carrying $5,000 from Mazatian to Rosario to pay the employes and Miners of the Tajo Mining Company recently, was halted by sixteen men at a hill known as Devisadora. After robbing the coach of the silver, it was permitted to proceed.

A PITTSFIELD, Ill., man is said to have made a big barrel churn upon wheels. He goes through the country gathering the cream, and when he has secured the proper quantity returns home. On the way home he connects the churning gear, and as he drives along the churning goes on as the wagon goes along, and when he arrives there is nothing to do but take out the butter and draw off the buttermilk.

THE body of a man who died in Omaha was sent to Akron, Ohio, for burial. On the case inclosing the coffin was tacked an itemized bill for $110, which was to be collected before the body was delivered to the friends of the deceased man. The bill called for the collection of $60 for the undertaker, $20 for hospital care, $10 for the physician's fee, $6 for carriages, and $2 for an Omaha priest's saying mass for the repose of the dead man's soul.

A CURIOUS conveyance is a Compton carryall, described by a correspondent. This is an ingenious contrivance, resembling an ordinary milk-wagon, with two seats in it. It is supposed to hold any number of people, and one poor horse is supposed to draw them. Entrance is gained over the horse's tail, and to reach the back seat necessitates climbing over the front one. The "gettin' in" of this vehicle is no small part of the ride, and is not exceeded in difficulty even by the "gettin' out."

IN Greene County, Georgia, two negroes had some trouble over a lot of walnuts. The one to whom the nuts belonged caught another stealing them, and took his ax and made him carry them back to where he got them, but the negro would not put them out of his sack. So the owner sent his little boy to the house for his shotgun, and when the boy came in sight the negro who had stolen them threw his sack down and broke for the gun, and, after springing both hammers, turned the joke on the owner, who had to run to keep from getting shot. After he had run the owner off he went back and got the nuts and carried them home.

THE constitution of the Confederate States was signed by forty-nine delegates, thirty-seven of whom are dead. The President survives, but Vice President Stephens died four years ago. Of three who held the portfolio of state in the Cabinet, all are dead; of five Secretaries of War, all; of two Secretaries of the Treasury, one; of four Attorney Generals, two, and the one Secretary of the Navy; while the sole Postmaster General, Mr. Reagan, is still alive. Of thirteen commissioners accredited to represent the Confederacy abroad, ten are dead. There were five men who bore rank as full generals in the army, of whom Johnston and Beauregard alone survive; twenty-one lieutenant generals, of whom eleven are dead; 100 major generals, of whom fifty-five are dead, and 480 brigadier generals, of whom considerably more than half are dead.

"A Fellow of Most Excellent Fancy."

A correspondent writing from the shore of the loud-sounding sea, says he "passed an hour on the sea sands watching the cool beryl-green waves frothing into foam flowers as they broke on the snowy beach of white sand." Well, maybe he did; maybe he did. You see he only passed an hour when he saw all that; after about two days he could see more. He could begin to discern, as through a glass darkly, masses of slimy kelp that get around the bathers' necks and make them think the sea serpent has hold of them. He could see the blue-gray sole of the castaway overshoe, and the red-rusty wreck of the indestructible bustle; the ham-bone bleaching whiter than foam flowers; he could hear the far-reaching voice of the sweet south wind stealing across a bank of stranded weak-fish stealing and giving odor; he might see the man who lost his store teeth in the cool beryl-green waves, and is looking for a good place to die. Why, after he has been there two days, he can see things in his bed that for stimulating properties are as much wakinger than the beryl-green waves as a corker of old rye is than a tablespoonful of laudanum. If the correspondent really wants to see really startling things at the sea-shore, he doesn't want to loaf around on the alabaster sands watching the beryl-green waves; he wants to sneak around and take a peep in at the kitchen windows. Then he can tell what he sees, and it will be profoundly interesting even with the beryl-green business left out. *Burdette.*

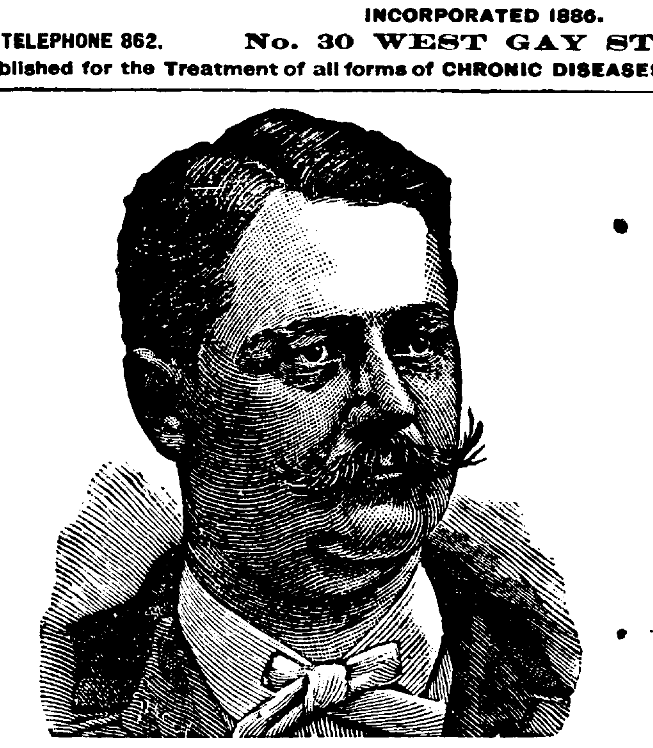
DR FRUTH, OF NEW YORK,

:o:

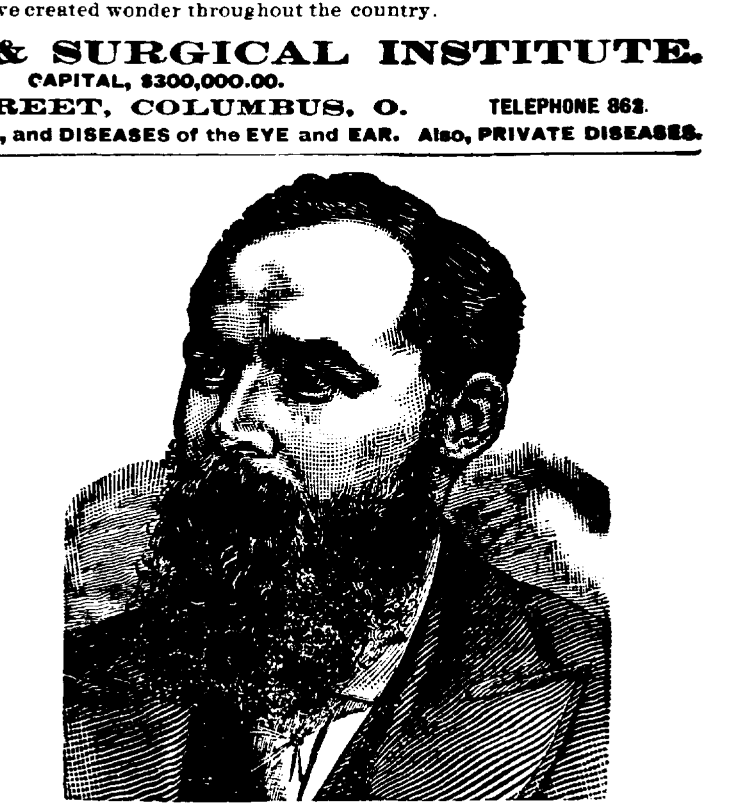
The Celebrated German Specialist in Chronic Diseases and Diseases of the Eye and Ear, also Surgeon in Charge of the France Medical and Surgical Institute, of Columbus, O., by request of many friends and patients, will make a return visit to Fort Wayne, Ind., Tuesday, and Wednesday November 15 and 16 Consultation and examination free and confiddential at his Parlors at the Robinson House from 9 a. m. to 9 p. m. Two days only.

When it is known that Dr. Fruth is stopping at a place, crowds gather to consult him, and it is not to be wondered at when it is remembered that in diagnosing a disease he never asks questions, but describes the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess. The doctor's diagnostic powers have created wonder throughout the country.

THE FRANCE MEDICAL & SURGICAL INSTITUTE.
INCORPORATED 1886. CAPITAL, $300,000.00.
TELEPHONE 862. No. 30 WEST GAY STREET, COLUMBUS, O. TELEPHONE 862.
Established for the Treatment of all forms of CHRONIC DISEASES, and DISEASES of the EYE and EAR. Also, PRIVATE DISEASES.



D. OTHO FRUTH, M. D., the celebrated German Specialist, of New York, Surgeon in Charge.



Dr. FRANCE, of New York, the well known Specialist in Chronic Diseases and Diseases of the Eye and Ear, Principal.

DR. FRANCE, of New York, the well known and successful Specialist in Chronic Diseases and Diseases of the Eye and Ear, on account of his large practice in Ohio, has associated himself with D. OTHO FRUTH, M. D., the celebrated German Specialist, of New York, who has resigned his position in the Provident Medical Dispensary to take charge of the *France Medical Institute*, where all forms of *Chronic, Nervous and Private Diseases will be successfully treated on the most Scientific Principles.*

A FAIR PROPOSITION.—Intelligent people, the world over, when the reason is appealed to and prejudice is laid aside, can always be relied upon to reach a correct conclusion in any matter that may be presented to them. It is in this way Dr. France, the founder of the France Medical Institute, at No. 30 West Gay street, desires to meet the public, and discuss the manner in which he undertakes to cure chronic diseases. He places his propositions in this wise: Are you accustomed to think and act for yourself? If so, then do not heed the counsel of skeptical and prejudiced friends, or jealous physicians, but listen to what we have to say. You perhaps know nothing of us or our system of treatment, or of the business methods we employ. You may imagine, but you know nothing of our facilities and advantages of perfecting cures in cases beyond the reach or aid of the general practitioner. Knowing nothing, then, of all these advantages, you still know as much as the would-be friend or physician, who never loses an opportunity to traduce and misrepresent us, and prejudice the afflicted against us. We wish to add further that we are responsible and invite you to come and visit our institution; and if you find on investigation that we have mistated or misrepresented in any particular, our institution, our advantages or our success in curing Chronic Diseases, we will gladly bear the expense of your trip. We court honest, sincere investigation, and are glad and anxious to show interested people what we can do and are doing for suffering humanity. Can a proposition be plainer? Can an offer be more fair and business-like? If, therefore, you are afflicted and are seeking relief, come where genuine ability is a ruling feature, where success is our watchword and the alleviation of human suffering our mission.

They adopt the following plan, which is peculiar to the large hospitals, and is not and never has been the practice of country doctors, viz: They carefully note the symptoms of the patient, ascertain the conditions of the internal organs, examine Eye, Ear and Throat by the most recent and approved instruments and methods, all of which they carefully record in their register for future reference. In this way they ascertain the true nature of the disease and its cause. Knowing the disease, they know the changes it produces in the tissues, and, knowing the changes, they check them with specific remedies, and place the patient on the high road to recovery. When sick people consult them they readily tell them whether they can cure or help them, or if they are beyond hope.

The examinations are in accordance with anatomical and physical science, and they will convince the most skeptical. By an examination they will convince any one of the nature and extent of disease, amount of danger to life, and chance of a perfect cure. Believing that science is truth, and "truth is mighty and will prevail" when known, and knowing that disease can be cured, with positive certainty, they invite the afflicted to call and receive advice free and be cured of their diseases.

There is no subject that requires so much study and experience as the treatment and cure of Chronic Diseases. The astounding success and remarkable cures performed by them are due to the long study of the constitution of man, and the cure of diseases by natural remedies. Let those given up by others call for examination. They have successfully treated the following diseases since their arrival in this State; Eye and Ear Diseases, Chronic Diarrhœa, Chronic Inflammation of the Womb, Chronic Inflammation of the Bladder, Painful or Irregular Menstruation, Fever Sores and Ulcers, Incontinence of Urine, Tape Worms, Crooked Limbs and Enlarged Joints, Spinal Curvatures, Club Foot, Hip Joint Diseases, White Swelling, Discharging Abcesses, Sterility or Barrenness, Nervous and General Debility, Prostration and Impotency, Disease of the Kidneys and Bladder, Leucorrhea or Whites, Blotches and Pimples, Skin Diseases, Dyspepsia, Constipation, Dropsy, Cancer, Epileptic Fits, Erysipelas, Gravel, Goitre, Gleet, Gonnorrhæa, Hydrocele, Heart Disease, Liver Disease, Headache, Piles, Hysteria, Syphillis, St. Vitus Dance, Chronic Dysentery, Enlarged Tonsils, Fever and Ague, Fistula in Ano, Hernia or Rupture, Ovarian Tumors, Paralysis or Palsy, Prolapsus Uteri, Bronchitis, Asthma, Catarrh, Scrofula, Consumption, Chronic Cough, Female Weakness, Spermatorrhœa, Rheumatism, etc.

CURING OF PILES GUARANTEED.—Will give $1,000 for any case of failure. No money required of responsible parties.

YOUNG MEN—Who have become victims of solitary vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with confidence.

DR. FRANCE—After years of experience, has discovered the greatest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, palpitation of the heart, timidity, trembling, dimness of sight, or giddiness, diseases of the head, throat, nose or skin, affections of the liver, lungs, stomach, or bowels—those terrible disorders arising from the solitary vice of youth—and secret practices, blighting their most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. My method of treatment will speedily and permanently cure the most obstinate case and absolutely restore perfect manhood.

TO MIDDLE-AGED MEN.—There are many from the age of 30 to 60 who are troubled with frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits a ropy sediment will be found, and sometimes small particles of albumen will appear, or the color will be a thin or milkish hue, again changing to a dark or torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

PRIVATE DISEASES—Blood Poison, Venereal Taint, Gleet, Stricture, Seminal Emissions, Loss of Sexual Power, Weakness of Sexual Organs, Want of Desire in Male or Female, whether from imprudent habits of youth or sexual habits of mature years, or any cause that debilitates the sexual functions, speedily and permanently cured. Consultation free and strictly confidential. Absolute cures guaranteed. No risks incurred. Correspondence promptly answered, and medicines sent free from observation to all parts of the United States.

DISEASES OF WOMEN.—We have a special department, thoroughly organized, and devoted exclusively to the treatment of diseases of women. Every case consulting our specialist, whether by letter or in person, is given the most careful and considerate attention. Important cases (and we get few which have not baffled the skill of all the home physicians) have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two-thirds of our patients being ladies, old, young, married, single, rich and poor. Our method is entirely free from objectionable features of the general practitioner, namely, "Local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

EPILEPSY, OR FITS—Positively cured by a new and never-failing method.

To Whom it May Concern: We, the undersigned, do cheerfully and conscientiously recommend Drs. France and Fruth as gentlemen of rare professional ability, ripe in judgment, humane to a fault, considerate in price, and enthusiastic for the relief of their fellow men, and we therefore urge the afflicted to avail themselves of their superior skill.

Granville M. Weeks, M. D., L. L. D., President Provident Dispensary, N. Y.; T. Merideth Maxwell, A. M., M. D., N. Y.; Orvin Pomeroy, M. D., N. Y.; V. M. Davis, M. D., N. Y.; W. F. White, A. M., M. D., Toronto, Canada; F. H. Rorick, M. D., Chicago, Ill.; Dr. Gardner, Painesville, O.

Also, Farmers' National Bank, Findlay, O.; First National Bank, Fostoria, O.; Second National Bank, Bucyrus, O.; Fourth National Bank, Columbus, O.

FREE EXAMINATION OF THE URINE.—Each person applying for medical treatment should send or bring from 2 to 4 ounces of urine, which will receive a careful chemical and microscopical examination. Persons ruined in health by Unlearned Pretenders, who keep trifling with them month after month, giving poisonous and injurious compounds, should apply immediately.

WONDERFUL CURES Perfected in old cases which have been neglected or unskillfully treated. No experiments or failures. Parties treated by mail and express, but where possible, personal consultation is preferred. Curable Cases Guaranteed. Lists of questions sent free. Address, with postage,

That's So

Relief is certain for the despondent feelings of the dyspeptic, the constipated habit of the sedentary, the headaches of the nervous and bilious, by the simple use of Simmons Liver Regulator,—easy to take, not nauseating or disgusting, not more bitter than a glass of beer and far more grateful. It is no intoxicating beverage, but it tones up the system, settles the stomach, assists digestion, regulates the bowels, and stimulates the Liver. Take it once and and you will discard all other medicines.

"I have used many remedies for Dyspepsia, Liver Affection and Debility, but never have found anything to benefit me to the extent that Simmons Liver Regulator has. I would advise all who are similarly affected to give it a trial as it seems the only thing that never fails to relieve."—P. M. JANNEY, Minneapolis, Minn.

The certainty with which this remedy acts has astonished the Medical Profession and secured for itself unbounded praise. Its virtues consist in being so gentle a cathartic, tonic and alterative, that in its operation it does not interrupt the usual duties of life, but acts so naturally that the system is not upset or afterwards constipated. It attacks all bilious disorders and sluggishness of the Liver; is harmless, and can be taken at any time without fear of injury.

"I have been a user of Simmons Liver Regulator for years, having made it my only family medicine. It is a sure, good and reliable medicine. My mother before me was very partial to it."—Rev. JAS. M. ROLLINS, Pastor M. E. Church, Fairfield, Va.

$500 REWARD

is offered by the manufacturers of **Dr. Sage's Catarrh Remedy,** for a case of Chronic Nasal Catarrh which they cannot cure.

SYMPTOMS OF CATARRH.—Dull, heavy headache, obstruction of the nasal passages, discharges falling from the head into the throat, sometimes profuse, watery, and acrid, at others, thick, tenacious, mucous, purulent, bloody and putrid; the eyes are weak, watery, and inflamed; there is ringing in the ears, deafness, hacking or coughing to clear the throat, expectoration of offensive matter, together with scabs from ulcers; the voice is changed and has a nasal twang; the breath is offensive; smell and taste are impaired; there is a sensation of dizziness, with mental depression, a hacking cough and general debility. Only a few of the above-named symptoms are likely to be present in any one case. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, more deceptive and dangerous, or less understood by physicians.

By its mild, soothing, and healing properties, Dr. Sage's Catarrh Remedy cures the worst cases of **Catarrh, "cold in the head," Coryza,** and **Catarrhal Headache.** Sold by druggists everywhere; 50 cents.

"Untold Agony from Catarrh."

Prof. W. HAUSNER, the famous mesmerist, of *Ithaca, N. Y.*, writes: "Some ten years ago I suffered untold agony from chronic nasal catarrh. My family physician gave me up as incurable, and said I must die. My case was such a bad one, that every day, towards sunset, my voice would become so hoarse I could barely speak above a whisper. In the morning my coughing and clearing of my throat would almost strangle me. By the use of Dr. Sage's Catarrh Remedy, in three months, I was a well man, and the cure has been permanent."

"Constantly Hawking and Spitting."

THOMAS J. RUSHING, Esq., *2902 Pine Street, St. Louis, Mo.*, writes: "I was a great sufferer from catarrh for three years. At times I could hardly breathe, and was constantly hawking and spitting, and for the last eight months could not breathe through the nostrils. I thought nothing could be done for me. Luckily, I was advised to try Dr. Sage's Catarrh Remedy, and I am now a well man. I believe it to be the only sure remedy for catarrh now manufactured, and one has only to give it a fair trial to experience astounding results and a permanent cure."

Three Bottles Cure Catarrh.

ELI ROBBINS, *Runyan P. O., Columbia Co., Pa.*, says: "My daughter had catarrh when she was five years old, very badly. I saw Dr. Sage's Catarrh Remedy advertised, and procured a bottle for her, and soon saw that it helped her; a third bottle effected a permanent cure. She is now eighteen years old and sound and hearty."

Beau Nash.

Every one in Bath knew Mr. Nash's two best suits—the pink and the blue. Raleigh's doublet, heavy with pearls, and his plumed hat with the diamond clasp, must have been as easily recognized as old St. Paul's. Few Londoners were unfamiliar with Monmouth's golden periwig, or Lauzun's red heeled Paris shoes. The flashing gold lace; the rich embroidery; the ruffles, fine as a cobweb; the silver-hilted sword; the clouded cane, were too expensive adornments not to be worn over and over again in the mall and park, at Ranelagh and the Thatched House.

A dandy's coat came to be almost as well known as its mincing wearer, tripping in silk stockings along the muddy street, with a link boy or a flambeau bearing footman to light him to rout or coffee-house. Fine feathers did not necessarily make fine birds, but they certainly gave some scope for the revelation of character.

Professional characteristics are by far less notable than they once were. Ninety or a hundred years ago a British officer, instead of shuffling off his uniform at the first allowable moment, strutted habitually in his tight-fitting coatee of scarlet and gold. Bankers, peers, country gentlemen wore blue coats as surely as the parson wore black. Naval officers, now so mild, shivered their timbers like any theatrical Jack tar, and swore strange oaths by way of shotting their discourse. You can tell, not only by way of dress, but by diction, the social status of almost every casual customer. Nobody could confound the hard living reveller, the buck, the blood, the macaroni, in a plurality of showy waistcoats and strangled in his stiff cravat, with the sober, brown-clad citizen. The physician not merely clung to his gold-headed cane, buckled shoes, and court suit, but assumed a portentious air, such as might have benefitted an astrologer of the Middle Ages—Nostradamus, let us say—and was oracular in his speech, something quite different from the kind, cherry doctor of to-day. Even the footmen were finer and more insolent than any plushed and powdered Jeames of the present epoch can possibly be. Counselor Silvertongue was still the polite young barrister; but he had a formidable rival in overbearing Sergeant Browbeat. A lord walked as if in robes and coronet, and your Member of Parliament, his hands full of postal franks and his mind of jobbery, was quite unlike the modest M. P. of our own time.—*All the Year Round.*

Rev. Whangdoodle Lectures on Fools.

Berlubbed Awjience—Ef I waster describe de differunt kinds ob fools dar am in dis heah town hit would take me mor'n a week. We has only got time ter deal wid a few, and ef all de fools wore white caps dis heah world would look like one big goose ranche.

I has allers noticed no matter how big a fool a man may be he can allers find a bigger fool to admire and encourage him in his foolishness.

A fool may be described as a man who keeps on makin' de same blunders ober and ober widout knowin' it. Eberybody am lierable ter make blunders, but de man what's got sense don't foller hit as a regular bizness.

De serciety young man who goes by de name of dood am not classified wid de reglar fools. He don't berlong ter de human family. Dar's mighty little difference between a dood and a munkey, and what difference dar is am in favor ob de munkey.

Den dar's de talkative fool. De man who am sittin' in de mos' darkess ginerally does de mos' talkin'. De fraugs quit croakin' when a light am brought ter de water side. A bad cole must be awful lonesome in de head ob a man who talks too much; leastways dat's what Opie Reid says.

No remidy has been diskivered ter cure a fool. Fish has been suggested for brain food, but brains ain't fed inter a man. Dey am borned in him. Yer can't measure a man's brains by de size ob his head no moah deu you kin measure his elerquence by de size ob his mouf.

Fine close don't help a fool, dey only make his foolishness more conspicuous. Lots ob ambishun and too few brains am whut ails most fools.

De man who laffs at eberyding and de man who frets at eberyding am fools, but ob differunt kinds.—*Texas Siftings.*

Its Delicacy of Flavor

And the efficacy of its action have rendered the famous California liquid fruit remedy, Syrup of Figs, immensely popular. It cleanses and tones up the clogged and feverish system, and dispels Headaches and Colds, and Fevers. Large bottles for sale by Thieme and Gross.

The breath of a chronic catarrh patient is often so offensive that he becomes an object of disgust. After a time ulceration sets in, the spongy bones are attacked, and frequently entirely destroyed. A constant scource of discomfort is the dripping of the purulent secretions into the throat sometimes producing inveterate bronchitis, which in its turn has been the exciting cause of pulmonary disease. The brilliant result which have attended its use for years past properly designate Ely's Cream Balm as by far the best and only cure.

DR. MANVILLE,

THE EMINENT PHYSICIAN AND SPECIALIST

Lately Arrived from London, England.

Has Opened Office Parlors at 32 East Wayne Street,

The Doctor is a graduate of three different Medical Colleges, both European and American, as his Diplomas will show; and he has been highly honored by other Colleges and Universities as well.

His Reputation is International. He has practiced nearly a quarter of a century. He treats all diseases of the Eye and Ear, all Specific, Nervous, Chronic Diseases and Deformities, of men, women and children, and the Opium and Morphine habit. Dr. Manville diagnoses diseases by an entirely different method from that pursued by ordinary physicians and specialists. He never asks a patient his disease, but by a peculiar method reads and tells every disease, complication and symptom better than the patient can; and that without asking a question. It is

TRULY ASTONISHING!

Even physicians wonder at it and take critical cases to him for a final decision. The great question with them is: How Does He Do It? The internal parts of a patient seem to be as clear and plain to him as the external, but just how he obtains such a marvelous knowledge of his patient's condition, no one seems to understand, or be able to describe. That he does it in every case, no one doubts. Some seem to thing that the Doctor is gifted with supernatural powers; that no ordinary man could give such remarkable descriptions of strangers as he does. Be that as it may, this curious feature of his practice alone, is bringing him thousands of grateful patients; many of whom declare that his wonderful diagnostic skill and power in performing cures is

Positively Miraculous

The most skeptical are convinced and astonished.

Sufferers from Nervous Debility and Blood Diseases and complaints of either sex, requiring Special Treatment, cured in a few days or weeks. without interfering with their work.

HUNDREDS OF MEN.

are afflicted with Seminal Weakness, Spermatorrhea, and Impotency, brought on by various causes, such as veneral excesses and diseases, occupations requiring a straining and stooping position, and especially the unnatural abuses of the sexual functions, the SOLITARY HABIT so often indulged in youth without knowing the terrible results.

Young man, Stop! Look this matter square in the face; think, consider what you are doing. Waste no time and money with ignorant or unskillful pretenders, who trifle with you month after month, treating SYMPTOMS only, with Bromide of Potassium compounds that impoverish your blood, deadens your nerves; stupefy your mind and relieve nothing—but your pocket book. Such poisonous drugging

MAKES YOU WORSE.

We can prove by hundreds of cases on record that bromide mixtures so often given for fits and lost manhood, seldom, if ever, cure fits, but almost always DESTROY MANHOOD and RUIN the MIND. Bromide of Potassium and Gelseminum are the main remedies used. Given for seminal weakness &c., to control SYMPTOMS while you take them. They never touch the CAUSE or effect a CURE. The unhappy victim goes on from bad to worse, reaching at last the most deplorable and horrible condition of humanity imaginable. A Lost Mind—a helpless idiot or raving maniac; made so by the action of these poisons on the blood and brain, as well as by the disease. In fact, these remedies are worse even than the disease. Let Them Alone.

In all such cases we gurantee a speedy restoration to healthy, strong and vigorous manhood. Microscopical examinations of the urine made in all these cases. We make NO EXPERIMENTS and very few failures. We guarantee all curable cases.

Electric Medication and the NEW METHOD TREATMENT enables us to effect WONDERFUL CURES.

DISEASES OF WOMEN.

Every maid, wife and mother who has dragged an aching back and head through weary years; deserves our utmost sympathy and may depend on getting the most careful, skillful and successful medical treatment that can be given. Twenty years study and practice in diseases of women, both in Europe and America, has convinced me that eight out of ten American women suffer from some of the following complaints peculiar to the sex: Irregularity of the menses, too free, too scant, or painful, leucorrhea, (whites,) vaginitis, metritis, endometritis, ulcerations, displacements, falling of the womb, anteversion, retroversion, lateroversion, ante and retroflexions, producing constipation, or produced by it; uterine and ovarian tumors, fibroma and sarcoma cysts, cancers of the womb or its appendages, frequent or scanty urination, with burning, smarting or itching tenderness, soreness, bloating and backache, eruptions of the skin, pimples, blotches, brown spots, yellow spots, red spots, greasy, pasty, waxy, or chlorotic appearances, and discolorations of the skin, with blue or dark circles around the eyes. Nature is true: she displays her signs and signals the approach of the grim enemy of life, disease. Look sharply into your mirrors; be not deceived, for these signs and symptoms mean weakness, nervousness, irritability, wakefulness, indigestion, headaches, forgetfullness, partial paralysis, sterrility, melancholy, hysteria, wasting, consumption, catalepsy, St. Vitus dance, fits, derangements, insanity and suicide. Many ladies, especially young ladies, are so timid and excessively modest that they hesitate and put off calling on a physician until they are past curing. Mothers should learn more of their daughter's ailments, banish from their minds a dread of examination, for ladies do not have to tell their complaints to Dr. Manville; no unpleasant questions are asked; no objectionable examinations are made; no painful local treatments are given. In most cases ladies can use our local remedies themselves, where it is needed.

While Dr. Manville was on the Medical Staff of the Woman's Hospital, in New York, he was especially noted for great success in treating all diseases peculiar to women.

For the weak and feeble women, and those not in a condition to rear a family, Dr. Manville's "Germicide and Women's Friend," will prove a blessing indeed. Nearly three thousand ladies have called, or sent for it, and used it successfully. It is the greatest remedy known in Europe or America for "Female Weakness." Call now, before it is TOO LATE.

Extraordinary cases require extraordinary skill and experience

Health and strength will make you happier and more independent than money. Study your own interests. Delays are dangerous.

Our terms will be made satisfactory to all: charges as moderate as we can in justice to ourselves and patients make them.

Consultation and examination free. Office hours 8 a. m. till 9 p. m. Office parlors at 32 East Wayne street.

A day or two ago the eastern producers advanced the price of coke 50 cents per ton. At the anthracite mines the price advanced 25 cents per ton, and the rate from Buffalo to western points went up 10 cents per ton. At the Jackson coal mines the price advanced 25 cents per ton, and at the Indiana coal mines 20 cents per ton. To make the matter worse, there is no Pittsburg coal on the market, the river for months past having been too low to enable its shipment down in barges, and, what is still more serious with this advance in prices there is a scarcity of coal such as has not been known since the article came into general use. Railroads and manufactories, as well as the public generally, have trouble in getting their orders filled, and the situation is becoming more and more serious. The supply of Indiana coal has not been so light on the first day of November as this year in the remembrance of the oldest dealers. Strikes have been one cause and another is the drought. Water is so low in the mines that the railroads are hauling water to the machine mines to enable them to continue operations.

STOLEN CLOVER SEED.

Adam Link Gets Into Trouble Through Freemont Springer.

THE SENTINEL yesterday briefly noted that a fellow was detected in the act of selling stolen clover seed to S. Bash & Co.

The thief is Fremont Springer, alias Schilling. He worked near Leo for a farmer named Rosenberg, and from him he stole a lot of clover seed. He brought the seed to the city early yesterday morning and sold it to S. Bash & Co. The fellow had the order in his hand when Rosenberg's brother appeared and identified the cloverseed.

Springer fled and the officers could get no track of him. Pretty soon Adam Link, who keeps a box factory on East Wayne street, put in an appearance with the order. He explained that Springer gave it to him for an old debt, but this did not satisfy the officers and Sheriff Viberg locked Link up.

He is related to Springer by marriage, but later Prosecutor Robinson ordered his release as he disclosed the whereabouts of Springer.

Temperance Rally.

A stirring temperance and prohibition speech was delivered at the Christian church, last night, by Rev. David W. Jones, in which he painted the whisky seller in his true colors. He was followed in grand arguments by Messrs. Winch, Fellows and others in favor of prohibition, and all of whom paid their compliments to a man who will deliberately sell whisky, solely for money, knowing the sufferings, misery and sorrow he is causing defenseless wives and helpless children. Every school teacher, scholar and person studying geography should attend to-night and hear a returned missionary lecture on Australia and New Zealand. This lecture is free and the lecturer will describe his lecture by maps and charts of these countries. Rev. Blaney invites you all to attend all these meetings. SAM SMALL'S BROTHER.

Why Did God Make so Much Outdoors?

Two Women's Experiences.

"Sam Small, Evangelist!"

The proverbial philosophy of "Old Si," the venerable plantation darkey, who gave to the world through the medium of Small's pen maxims of worldly wisdom, clothed in a verbiage of irresistible humor, has found a permanent place in humorous literature.

Great surprise was shown when it was announced that he, having been converted under the ministrations of "Sam Jones," would become an evangelist.

At first thought, a humorist in the pulpit seems incongruous. Is it really so?

No doubt the mere buffoon attempting to turn men's hearts to solemn truths would meet with only contempt. But truth is not hidden in gloom. Genuine humor frequently illustrates and fastens in the mind bits of wisdom that would otherwise pass unheeded.

In his eulogy of Henry Ward Beecher, Rev. Dr. Parker says: "Whenever he came among men, he brought June sunshine and music, and made even desponding and surly men feel that a fuller and warmer summer, 'the Kingdom of Heaven,' itself was 'at hand.'" That is genial christianity.

Mr. Small belongs to a witty family. He has a brother connected with Armoy Knox's and "Fat Contributor's" *Texas Siftings*, a paper which has had phenomenal success in the field of humorous literature. Mr. Frank A. Small is the present representative of that popular paper in England, and, like his distinguished brother, he takes a deep interest in the welfare of other people.

Under date of 48 Porteu Road, Kensington W. London, Eng., Sept. 27th, 1887, he writes "While at Yalding in Kent yesterday, I met Prof. S. Williams, Head Master of the Cleaves Endowed school. In the course of conversation about America, Professor Williams remarked that Warner's safe cure had been of great benefit to his wife, who had been much troubled with a disordered liver. Warner's safe cure (an American preparation) was all she had taken, and she had experienced none of her old trouble for some months past.

Mrs. Annie Jenness Miller, editor of New York *Dress*, and a very popular woman in the fashionable world, says in her own magazine for October: "Warner's safe cure is the only medicine I ever take or recommend. In ever instance it gives new energy and vitality to all my powers." This distinguished woman also says that for ladies this great remedy is "peculiarly effective."

Sam Small is likely to succeed as a moral teacher. When we remember how near together in human nature lie the fountains of laughter and of tears, the deep effect his discourses must have on the masses can easily be imagined.

"Why did God make such outdoors?" exclaimed a little girl. We know not. He has made it and we should grow in it, broad, charitable and genial, judging everything by merit, not by prejudice.

South of Creighton avenue, the following streets: Harrison, Webster, Taber and Suttenfield, are 60 feet in width and are "parked," as is customary in many other cities east and west. With the regular six feet walk, nine feet more are taken from the street, fifteen feet on each side, for grass plat and trees. This is called "parking" the street. Which still remains amply wide for carriages and wagons. Where streets are thus "parked" fences are usually considered a superfluous expense and the roadway is more easily kept rounded up in good condition for driving.

NO DISLOYALTY!

A Prominent Republican and ex Union Soldier Gives His Version of the Jeff Davis Demonstration.

NASHVILLE, Tenn., Nov. 3.—Mr. G. W. Gifford, a gentleman well known to the business men of Nashville and Tennessee, was present at the reunion of the ex-confederates at Macon, Ga., at which President Davis attended, and stood within a few feet of him during the scenes of the review, of which the northern republican press have had so much to say. Mr. Gifford located in Nashville at the close of the war and has been a member of the largest wholesale firm in the city, McAllister & Coat. At present he is the general agent for Tennessee and southern Kentucky of several large manufacturing concerns. No citizen is more highly respected. Mr. Gifford is a pronounced republican and an ex-union soldier, and is a member in good standing of the George H. Thomas post No. 1, G. A. R.

He has just returned from Georgia and said that he felt it his duty as an American citizen to protest against the wrong which is being done the people of the south, and more particularly those in Georgia, by the publications which gave sensational accounts of the conduct of the ex-confederates at the reunion and also the conduct of Mr. Davis. He thought there were overwhelming evidences of a loyalty in the decorations and that the ex-confederates only paid a tender tribute to their nearly dying ex-president.

Amer Green's Story Utterly False.

LOGANSPORT, Ind., Nov. 3.—Deputy Sheriff Buck Stanley, of this city, received a letter yesterday from Deputy Sheriff R. H. The story of Mrs. Orr, telegraphed to the St. Louis *Globe-Democrat*, about one Sam Payne, etc., was made up out of the whole cloth by Fort Worth reporters, as they now confess.

THE ANARCHISTS.

The Governor will not Talk About Their Case.

SPRINGFIELD, Nov. 3.—Absolutely nothing can be said as to the probable action of the governor in the anarchists' case, as his excellency declines to say anything on the subject. The decision of the United States supreme court was made known to him shortly before noon yesterday and his features at once assumed an expression of real gravity. He received a number of letters and petitions on the subject and it is asserted three Chicago ladies visited him in the interest of the condemned men. The feeling is almost universal here that he will not interfere with the sentence of the court, that the conditions are such he cannot. There is a bare possibility he may interpose clemency in the interest of Fielden and Schwab, though he said nothing to indicate even this.

CHICAGO, 3:00 p. m., Nov. 3.—Two full companies of policemen are now quartered in the county jail, near the anarchists' cells. There are fifty-four men in all, each armed with a Winchester rifle. These men will remain in the building until after the event on the 11th instant.

He took his seat near the door, and soon after was discovered with a pistol in his hand, snapping it, apparently for fun, thinking it was not loaded.

He refused the request of Mr. Jenkins to put the revolver away, and snapped it again at Jenkins. It exploded, carrying the bullet into the abdomen of Jenkins, who soon afterward expired. Jenkins was the father of the bride. Lepp is a German, and all his neighbors say, good-natured. He explains that he did not know it was loaded.

The railroads are not doing a very rushing business just now as far as passenger traffic is concerned. Travel is light and the ticket agents are having a little rest.

Frank Merrill, a moulder in the Bass works, is making arrangements for a two weeks' absence at Upper Sandusky during the holidays. Frank has a girl at that place, and, of course, anticipates a pleasant time.

Conductor Charles Dondrirk still remains at the St. Joseph hospital and is slowly recovering from his injuries. The Fred Graffe minstrels and the Fort Wayne rifles will tender him a benefit at Library hall November 21 and 22.

This morning while some men were unloading a car load of wood on the Wabash track near the Olds works a red squirrel jumped from the car and took refuge in the big lumber piles near by. Some of the expert hunters of that establishment will undoubtedly have his squirrelship for dinner to-morrow.

The new car house of the Citizen's street railway will be finished next week. It will have a capacity for storing thirty cars and will give the company stable room for seventy horses. Three of the fifteen new and elegant cars are ready for shipment from New York, and will be received when the car house is ready.

The Pennsylvania company's shops, in this city, have just commenced work on twelve new locomotives. The work on thirteen new locomotives has just been finished, and they will be sent out into the freight service on this division of the road in a few days. Business is brisk in the Pittsburg shops, and night work is a common thing in every department of the works.

H. M. Stiver and Charles Crouse, two of the most popular brakemen on the Nickel Plate, have both suffered injuries in the line of duty during the last few days. Mr. Stiver had his hand crushed while making a coupling at Leipsic, and Mr. Crouse had his head badly bruised by being caught between the engine and a car at Fostoria. While both are quite painfully injured, they will be ready for duty again in a few days.

A general strike of all the switchmen in Omaha is threatened on account of the unpopularity of Yardmasters Meehan and Tighe, of the Union Pacific. The switchmen allege that those men are habitual drunkards and grossly abusive to the men working under them. Grand Master Monaghan, of the Switchmen's Mutual Aid society, has had a conference with Supt. Blickensderfer, and submitted an ultimatum demanding the discharge of the obnoxious yardmasters.

A traveler reports that about 5 p. m. on Tuesday the engineer of the west bound passenger train running near Spokane Falls, in Washington territory, saw a large pine tree lying across the track ahead. The discovery being made too late to allow stoppage of the train the engineer turned on full steam and the engine cut though the tree without accident and with such a slight jarring as to be imperceptable to the passengers. The informant avers that the stick was two feet in diameter and was parted with a swath the width of the trucks.

The most important business matter acted on during the last day's session of the Brotherhood of Locomotive Engineers at Chicago was the proposition to create a sinking fund for the pensioning of veteran engineers of sixty-five years of age or over, who have become disabled or infirm in the service. It was the recommendation of the committee that this matter be referred to the various local divisions to be voted on directly by every member of the brotherhood. This plan was accordingly adopted by the convention and the vote of the brotherhood will be taken as provided for, and determine in this manner the action of next year's convention with respect to making due provision for the pension system, if it should be adopted, as it likely will be.

Do not for a moment let your confidence betray you into supposing yourself incapable of mistake. It is indeed a serious blunder to refuse to take Dr. Bull's Cough Syrup when you even suspect you have taken cold.

The cabinet organ was introduced in its present form by Mason & Hamlin in 1861. Other makers followed in the manufacture of these instruments, but the Mason & Hamlin Organs have always maintained their supremacy as the best in the world. Mason & Hamlin offer, as demonstration of the unequaled excellence of their organs, the fact that at all of the great World's Exhibitions since that of Paris, 1867, in competition with the best makers of all countries, they have invariably taken the highest honors. THURSDAY, NOV. 3, 1887.

THE destructive habits of rabbits are well known. In Australia they abound. When a servant enters a situation she requires a promise that at least one day in the week she shall not be obliged to eat rabbits. In three years 18,000,000 of these rabbits were destroyed, and a bounty of $120,000 has been paid out for their destruction.

THE Philadelphia *North American*, published by Morton McMichael's sons, has entered the 109th year of its existence as a daily newspaper. Its very first parent was the *Pennsylvania Packet*, beginning in 1771. The *North American* is the offspring of two marriages, one uniting the *Packet* and *Advertiser*, and the other the *Advertiser* and the *United States Gazette*.

IN Guadalajara, Mexico, the Indians furnished much sport when the law making compulsory the wearing of trousers by the men went into effect recently. They all walked very awkwardly; some were greatly bewildered by the pockets, and many donned the garment wrong side before. After considerable grumbling they accepted the new order of things good-humoredly.

THE stage coach that was carrying $5,000 from Mazatlan to Rosario to pay the employes and Miners of the Tajo Mining Company recently, was halted by sixteen men at a hill known as *Revisadora*. The assailants fired a volley from their rifles, killing a woman and child, the only passengers in the coach, and gravely wounding the conductor. After robbing the coach of the silver, it was permitted to proceed.

A PITTSFIELD, Ill., man is said to have made a big barrel churn upon wheels. He goes through the country gathering the cream, and when he has secured the proper quantity returns home. On the way home he connects the churning gear, and as he drives along the churning goes on as the wagon goes along, and when he arrives there is nothing to do but take out the butter and draw off the buttermilk.

THE body of a man who died in Omaha was sent to Akron, Ohio, for burial. On the case inclosing the coffin was tacked an itemized bill for $110, which was to be collected before the body was delivered to the friends of the deceased man. The bill called for the collection of $60 for the undertaker, $20 for hospital care, $10 for the physician's fee, $5 for carriages, and $2 for an Omaha priest's saving mass for the repose of the dead man's soul.

A CURIOUS conveyance is a Compton carryall, described by a correspondent. This is an ingenious contrivance, resembling an ordinary milk-wagon, with two seats in it. It is supposed to hold any number of people, and one poor horse is supposed to draw them. Entrance is gained over the horse's tail, and to reach the back seat necessitates climbing over the front one. The "gettin' in" of this vehicle is no small part of the ride, and is not exceeded in difficulty even by the "gettin' out."

IN Greene County, Georgia, two negroes had some trouble over a lot of walnuts. The one to whom the nuts belonged caught another stealing them, and took his ax and made him carry them back to where he got them, but the negro would not put them out of his sack. So the owner sent his little boy to the house for his shotgun, and when the boy came in sight the negro who had stolen them threw his sack down and broke for the gun, and, after springing both hammers, turned the joke on the owner, who had to run to keep from getting shot. After he had run the owner off he went back and got the nuts and carried them home.

THE constitution of the Confederate States was signed by forty-nine delegates, thirty-seven of whom are dead. The President survives, but Vice President Stephens died four years ago. Of three who held the portfolio of state in the Cabinet, all are dead; of five Secretaries of War, all; of two Secretaries of the Treasury, one; of four Attorney Generals, two, and the one Secretary of the Navy; while the sole Postmaster General, Mr. Reagan, is still alive. Of thirteen commissioners accredited to represent the Confederacy abroad, ten are dead. There were five men who bore rank as full generals in the army, of whom Johnston and Beauregard alone survive; twenty-one lieutenant generals, of whom eleven are dead; 100 major generals, of whom fifty-five are dead, and 480 brigadier generals, of whom considerably more than half are dead.

Prophylactic in Sickness.

"A Fellow of Most Excellent Fancy."

A correspondent writing from the shore of the loud-sounding sea, says he "passed an hour on the sea sands watching the cool beryl-green waves frothing into foam flowers as they broke on the snowy beach of white sand." Well, maybe he did; maybe he did. You see he only passed an hour when he saw all that; after about two days he could see more. He could begin to discern, as through a glass darkly, masses of slimy kelp that get around the bathers' necks and make them think the sea serpent has hold of them. He could see the blue-gray sole of the castaway overshoe, and the red-rusty wreck of the indestructible bustle; the ham-bone bleaching whiter than foam flowers; he could hear the far-reaching voice of the sweet south wind stealing across a bank of stranded weak-fish stealing and giving odor; he might see the man who lost his store teeth in the cool beryl-green waves, and is looking for a good place to die. Why, after he has been there two days, he can see things in his bed that for stimulating properties are as much wakinger than the beryl-green waves as a corker of old rye is than a tablespoonful of laudanum. If the correspondent really wants to see really startling things at the sea-shore, he doesn't want to loaf around on the alabaster sands watching the beryl-green waves; he wants to sneak around and take a peep in at the kitchen windows. Then he can tell what he sees, and it will be profoundly interesting even with the beryl-green business left out. *Burdette.*

DR FRUTH, OF NEW YORK,

The Celebrated German Specialist in Chronic Diseases and Diseases of the Eye and Ear, also Surgeon in Charge of the France Medical and Surgical Institute, of Columbus, O., by request of many friends and patients, will make a return visit to Fort Wayne, Ind., Tuesday, and Wednesday November 15 and 16. Consultation and examination free and confidential at his Parlors at the Robinson House from 9 a. m. to 9 p. m. Two days only.

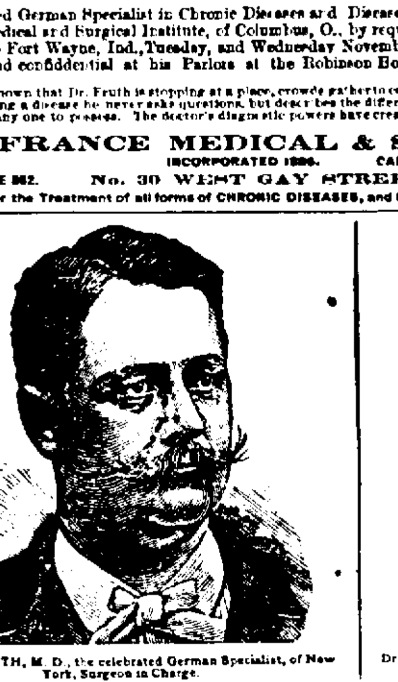
When it is known that Dr. Fruth is stopping at a place, crowds gather to consult him, and it is not to be wondered at when it is remembered that in diagnosing a disease he never asks questions, but describes the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess. The doctor's diagnostic powers have created wonder throughout the country.

THE FRANCE MEDICAL & SURGICAL INSTITUTE.

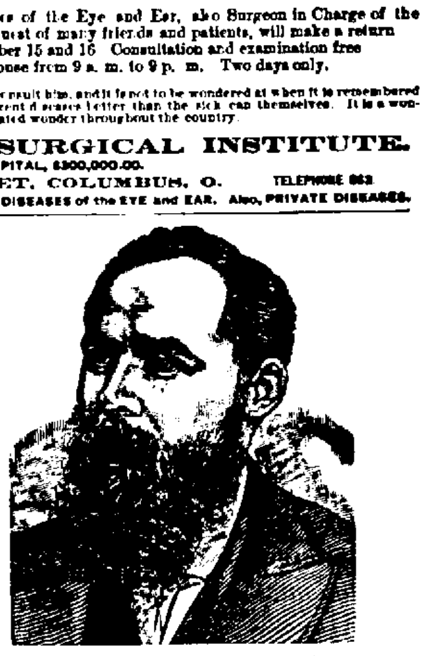
INCORPORATED 1886. CAPITAL, $300,000.00.

TELEPHONE 862. No. 30 WEST GAY STREET, COLUMBUS, O. TELEPHONE 862.

Established for the Treatment of all forms of CHRONIC DISEASES, and DISEASES of the EYE and EAR. Also, PRIVATE DISEASES.



D. OTHO FRUTH, M. D., the celebrated German Specialist, of New York, Surgeon in Charge.



Dr. FRANCE, of New York, the well known Specialist in Chronic Diseases and Diseases of the Eye and Ear, Principal.

DR. FRANCE, of New York, the well known and successful Specialist in Chronic Diseases and Diseases of the Eye and Ear, on account of his large practice in Ohio, has associated himself with D. OTHO FRUTH, M. D., the celebrated German Specialist, of New York, who has resigned his position in the Provident Medical Dispensary to take charge of the *France Medical Institute*, where all forms of *Chronic, Nervous and Private Diseases will be successfully treated on the most Scientific Principles.*

A FAIR PROPOSITION.—Intelligent people, the world over, when the reason is appealed to and prejudice is laid aside, can always be relied upon to reach a correct conclusion in any matter that may be presented to them. It is in this way Dr. France, the founder of the France Medical Institute, at No. 30 West Gay street, desires to meet the public, and discuss the manner in which he undertakes to cure chronic diseases. He places his propositions in this wise: Are you accustomed to think and act for yourself? If so, then do not heed the counsel of skeptical and prejudiced friends, or jealous physicians, but listen to what we have to say. You perhaps know nothing of us or our system of treatment, or of the business methods we employ. You may imagine, but you know nothing of our facilities and advantages of perfecting cures in cases beyond the reach or aid of the general practitioner. Knowing nothing, then, of all these advantages, you still know as much as the would-be friend or physician, who never loses an opportunity to traduce and misrepresent us, and prejudice the afflicted against us. We wish to add further that we are responsible and invite you to come and visit our institution; and if you find on investigation that we have mistated or misrepresented in any particular, our institution, our advantages or our success in curing Chronic Diseases, we will gladly bear the expense of your trip. We court honest, sincere investigation, and are glad and anxious to show interested people what we can do and are doing for suffering humanity. Can a proposition be plainer? Can an offer be more fair and business-like? If, therefore, you are afflicted and are seeking relief, come where genuine ability is a ruling feature, where success is our watchword and the alleviation of human suffering our mission.

They adopt the following plan, which is peculiar to the large hospitals, and is not and never has been the practice of country doctors, viz: They carefully note the symptoms of the patient, ascertain the conditions of the internal organs, examine Eye, Ear and Throat by the most recent and approved instruments and methods, all of which they carefully record in their register for future reference. In this way they ascertain the true nature of the disease and its cause. Knowing the disease, they know the changes it produces in the tissues, and, knowing the changes, they check them with specific remedies, and place the patient on the high road to recovery. When sick people consult them they readily tell them whether they can cure or help them, or if they are beyond hope.

The examinations are in accordance with anatomical and physical science, and they will convince the most skeptical. By an examination they will convince any one of the nature and extent of disease, amount of danger to life, and chance of a perfect cure. Believing that science is truth, and "truth is mighty and will prevail" when known, and knowing that disease can be cured, with positive certainty, they invite the afflicted to call and receive advice free and be cured of their diseases.

There is no subject that requires so much study and experience as the treatment and cure of Chronic Diseases. The astounding success and remarkable cures performed by them are due to the long study of the constitution of man, and the cure of diseases by natural remedies. Let those given up by others call for examination. They have successfully treated the following diseases since their arrival in this State: Eye and Ear Diseases, Chronic Diarrhœa, Chronic Inflammation of the Womb Chronic Inflammation of the Bladder, Painful or Irregular Menstruation, Fever Sores and Ulcers, Incontinence of Urine, Tape Worms, Crooked Limbs and Enlarged Joints, Spinal Curvatures, Club Foot, Hip Joint Diseases, White Swelling, Discharging Abscesses, Sterility or Barrenness, Nervous and General Debility, Prostration and Impotency, Disease of the Kidneys and Bladder, Leucorrhea or Whites, Blotches and Pimples, Skin Diseases, Dyspepsia, Constipation, Dropsy, Cancer, Epileptic Fits, Erysipelas, Gravel, Goitre, Gleet, Gonorrhœa, Hydrocele, Heart Disease, Liver Disease, Headache, Piles, Hysteria, Syphilis, St Vitus Dance, Chronic Dysentery, Enlarged Tonsils, Fever and Ague, Fistula in Ano, Hernia or Rupture, Ovarian Tumors, Paralysis or Palsy, Prolapsus Uteri, Bronchitis, Asthma, Catarrh, Scrofula, Consumption, Chronic Cough, Female Weakness, Spermatorrhœa, Rheumatism, etc.

CURING OF PILES GUARANTEED.—Will give $1,000 for any case of failure. No money required of responsible parties.

YOUNG MEN Who have become victims of solitary vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with confidence.

DR. FRANCE.—After years of experience, has discovered the greatest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, palpitation of the heart, timidity, trembling, dimness of sight, or giddiness, diseases of the head, throat, nose or skin, affections of the liver, lungs, stomach, or bowels—those terrible disorders arising from the solitary vice of youth—and secret practices, blighting their most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. My method of treatment will speedily and permanently cure the most obstinate case and absolutely restore perfect manhood.

TO MIDDLE-AGED MEN.—There are many from the age of 30 to 60 who are troubled with frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits a ropy sediment will be found, and sometimes small particles of albumen will appear, or the color will be a thin or milkish hue, again changing to a dark or torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

PRIVATE DISEASES.—Blood Poison, Venereal Taint, Gleet, Stricture, Seminal Emissions, Loss of Sexual Power, Weakness of Sexual Organs, Want of Desire in Male or Female, whether from imprudent habits of youth or sexual habits of mature years, or any cause that debilitates the sexual functions, speedily and permanently cured. Consultation free and strictly confidential. Absolute cure guaranteed. No risk incurred. Correspondence promptly answered, and medicines sent free from observation to all parts of the United States.

DISEASES OF WOMEN.—We have a special department, thoroughly organized, and devoted exclusively to the treatment of diseases of women. Every case consulting our specialist, whether by letter or in person, is given the most careful and considerate attention. Important cases (and we get few which have not baffled the skill of all the home physicians) have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two-thirds of our patients being ladies, old, young, married, single, rich and poor. Our method is entirely free from objectionable features of the general practitioner, namely, "Local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

EPILEPSY, OR FITS—Positively cured by a new and never-failing method.

To Whom it May Concern: We, the undersigned, do cheerfully and conscientiously recommend Drs. France and Fruth as gentlemen of rare professional ability, wise in judgment, humane to a fault, considerate in price, and enthusiastic for the relief of their fellow men, and we therefore urge the afflicted to avail themselves of their superior skill.

Granville M. Weeks, M. D., L. L. D., President Provident Dispensary, N. Y.; T. Merideth Maxwell, A. M., M. D., N. Y.; Orvin Pomeroy, M. D., N. Y.; V. M. Davis, M. D., N. Y.; W. F. White, A. M., M. D., Toronto, Canada; F. H. Roach, M. D., Chicago, Ill.; Dr. Gardner, Painesville, O.

Also, Farmers' National Bank, Findlay, O.; First National Bank, Fostoria, O.; Second National Bank, Bucyrus, O.; Fourth National Bank, Columbus, O.

FREE EXAMINATION OF THE URINE.—Each person applying for medical treatment should send or bring from 2 to 4 ounces of urine, which will receive a careful chemical and microscopical examination. Persons ruined in health by Unlearned Pretenders, who keep trifling with them month after month, giving poisonous and injurious compounds, should apply immediately.

WONDERFUL CURES Perfected in old cases which have been neglected or unskillfully treated. No experiments or failures. Parties treated by mail and express, but where possible, personal consultation is preferred. Curable Cases Guaranteed. List of questions sent free. Address, with postage,

That's So

Relief is certain for the despondent feelings of the dyspeptic, the constipated habit of the sedentary, the headaches of the nervous and bilious, by the simple use of Simmons Liver Regulator,—easy to take, not nauseating or disgusting, not more bitter than a glass of beer and far more grateful. It is no intoxicating beverage, but it tones up the system, settles the stomach, assists digestion, regulates the bowels, and stimulates the Liver. Take it once and and you will discard all other medicines.

"I have used many remedies for Dyspepsia, Liver Affection and Debility, but never have found anything to benefit me to the extent that Simmons Liver Regulator has. I would advise all who are similarly affected to give it a trial as it seems the only thing that never fails to relieve." P. M. JANNEY, Minneapolis, Minn.

The certainty with which this remedy acts has astonished the Medical Profession and secured for itself unbounded praise. Its virtues consist in being so gentle a cathartic, tonic and alterative, that in its operation it does not interrupt the usual duties of life, but acts so naturally that the system is not upset or afterwards constipated. It attacks all bilious disorders and sluggishness of the Liver; is harmless, and can be taken at any time without fear of injury.

"I have been a user of Simmons Liver Regulator for years, having made it my only family medicine. It is a sure, good and reliable medicine. My mother before me was very partial to it."—Rev. JAS. M. ROLLINS, Pastor M. E. Church, Fairfield, Va.

Sold by druggists, 25 cents a vial. Manufactured at the Chemical Laboratory of WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

$500 REWARD

is offered by the manufacturers of **Dr. Sage's Catarrh Remedy,** for a case of Chronic Nasal Catarrh which they cannot cure.

SYMPTOMS OF CATARRH.—Dull, heavy headache, obstruction of the nasal passages, discharges falling from the head into the throat, sometimes profuse, watery, and acrid, at others, thick, tenacious, mucous, purulent, bloody and putrid; the eyes are weak, watery, and inflamed; there is ringing in the ears, deafness, hacking or coughing to clear the throat, expectoration of offensive matter, together with scabs from ulcers; the voice is changed and has a nasal twang; the breath is offensive; smell and taste are impaired; there is a sensation of dizziness, with mental depression, a hacking cough and general debility. Only a few of the above named symptoms are likely to be present in any one case. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, more deceptive and dangerous, or less understood by physicians.

By its mild, soothing, and healing properties, Dr. Sage's Catarrh Remedy cures the worst cases of **Catarrh, "cold in the head," Coryza, and Catarrhal Headache.** Sold by druggists everywhere; 50 cents.

"Untold Agony from Catarrh."

Prof. W. HAUSNER, the famous mesmerist, of Ithaca, N. Y., writes: "Some ten years ago I suffered untold agony from chronic nasal catarrh. My family physician gave me up as incurable, and said I must die. My case was such a bad one, that every day, towards sunset, my voice would become so hoarse I could barely speak above a whisper. In the morning my coughing and clearing of my throat would almost strangle me. By the use of Dr. Sage's Catarrh Remedy, in three months, I was a well man, and the cure has been permanent."

"Constantly Hawking and Spitting."

THOMAS J. RUSHING, Esq., 2902 Pine Street, *St. Louis, Mo.,* writes: "I was a great sufferer from catarrh for three years. At times I could hardly breathe, and was constantly hawking and spitting, and for the last eight months could not breathe through the nostrils. I thought nothing could be done for me. Luckily, I was advised to try Dr. Sage's Catarrh Remedy, and I am now a well man. I believe it to be the only sure remedy for catarrh now manufactured, and one has only to give it a fair trial to experience astounding results and a permanent cure."

Three Bottles Cure Catarrh.

ELI ROBBINS, *Runyan P. O., Columbia Co., Pa.,* says: "My daughter had catarrh when she was five years old, very badly. I saw Dr. Sage's Catarrh Remedy advertised, and procured a bottle for her, and soon saw that it helped her; a third bottle effected a permanent cure. She is now eighteen years old and sound and hearty."

Beau Nash.

Every one in Bath knew Mr. Nash's two best suits—the pink and the blue. Raleigh's doublet, heavy with pearls, and his plumed hat with the diamond clasp, must have been as easily recognized as old St. Paul's. Few Londoners were unfamiliar with Monmouth's golden periwig, or Lauzun's red heeled Paris shoes. The flashing gold lace; the rich embroidery; the ruffles, fine as a cobweb; the silver-hilted sword; the clouded cane, were too expensive adornments not to be worn over and over again in the mall and park, at Ranelagh and the Thatched House.

A dandy's coat came to be almost as well known as its mincing wearer, tripping in silk stockings along the muddy street, with a link boy or a flambeau bearing footman to light him to rout or coffee-house. Fine feathers did not necessarily make fine birds, but they certainly gave some scope for the revelation of character.

Professional characteristics are by far less notable than they once were. Ninety or a hundred years ago a British officer, instead of shuffling off his uniform at the first allowable moment, strutted habitually in his tight-fitting coatee of scarlet and gold. Bankers, peers, country gentlemen wore blue coats as surely as the parson wore black. Naval officers, now so mild, shivered their timbers like any theatrical Jack tar, and swore strange oaths by way of shotting their discourse. You can tell, not only by way of dress, but by diction, the social status of almost every casual customer. Nobody could confound the hard living reveller, the buck, the blood, the macaroni, in a plurality of showy waistcoats and strangled in his stiff cravat, with the sober, brown-clad citizen. The physician not merely clung to his gold-headed cane, buckled shoes, and court suit, but assumed a portentious air, such as might have benefitted an astrologer of the Middle Ages—Nostradamus, let us say—and was oracular in his speech, something quite different from the kind, cheery doctor of to-day. Even the footmen were finer and more insolent than any plushed and powdered Jeames of the present epoch can possibly be. Counselor Silvertongue was still the polite young barrister; but he had a formidable rival in overbearing Sergeant Browbeat. A lord walked as if in robes and coronet, and your Member of Parliament, his hands full of postal franks and his mind of jobbery, was quite unlike the modest M. P. of our own time.—*All the Year Round.*

Rev. Whangdoodle Lectures on Fools.

Belubbed Awjience—Ef I waster describe de different kinds ob fools dar am in dis heah town hit would take me mo'n a week. We has only got time ter deal wid a few, and ef all de fools wore white caps dis heah world would look like one big goose ranche.

I has allers noticed no matter how big a fool a man may be he can allers find a bigger fool to admire and encourage him in his foolishness.

A fool may be described as a man who keeps on makin' de same blunders ober and ober widout knowin' it. Eberybody am lierable ter make blunders, but de man what's got sense don't foller hit as a regular bizness.

De sciety young man who goes by de name of dood am not classified wid de reglar fools. He don't berlong ter de human family. Dar's mighty little difference between a dood and a munkey, and what difference dar is am in favor ob de munkey.

Den dar's de talkative fool. De man who am sittin' in de mos' darkess ginerally does de mos' talkin'. De frangs quit croakin' when a light am brought ter de water side. A bad cole must be awful lonesome in de head ob a man who talks too much; leastways dat's what Opie Reid says.

No remidy has been diskivered ter cure a fool. Fish has been suggested for brain food, but brains ain't fed inter a man. Dey am borned in him. Yer can't measure a man's brains by de size ob his head no moah den you kin measure his elerquence by de size ob his mouf.

Fine close don't help a fool, der only make his foolishness more conspicuous. Lots ob ambishun and too few brains am what ails most fools.

De man who laffs at eberyding and de man who frets at eberyding am fools, but ob diferunt kinds.—*Texas Siftings.*

Its Delicacy of Flavor

And the efficacy of its action have rendered the famous California liquid fruit remedy, Syrup of Figs, immensely popular. It cleanses and tones up the clogged and feverish system, and dispels Headaches and Colds, and Fevers. Large bottles for sale by Thieme and Gross.

The breath of a chronic catarrh patient is often so offensive that he becomes an object of disgust. After a time ulceration sets in, the spongy bones are attacked, and frequently entirely destroyed. A constant scource of discomfort is the dripping of the purulent secretions into the throat sometimes producing inveterate bronchitis, which in its turn has been the exciting cause of pulmonary disease. The brilliant result which have attended its use for years past properly designate Ely's Cream Balm as by far the best and only cure.

DR. MANVILLE,

THE EMINENT PHYSICIAN AND SPECIALIST

Lately Arrived from London, England.

Has Opened Office Parlors at 32 East Wayne Street,

The Doctor is a graduate of three different Medical Colleges, both European and American, as his Diplomas will show; and he has been highly honored by other Colleges and Universities as well.

His Reputation is International. He has practiced nearly a quarter of a century. He treats all diseases of the Eye and Ear, all Specific, Nervous, Chronic Diseases and Deformities of men, women and children, and the Opium and Morphine habit. Dr. Manville diagnoses diseases by an entirely different method from that pursued by ordinary physicians and specialists. He never asks a patient his disease, but by a peculiar method reads and tells every disease, complication and symptom better than the patient can; and that without asking a question. It is

TRULY ASTONISHING!

Even physicians wonder at it and take critical cases to him for a final decision. The great question with them is: How Does He Do It? The internal parts of a patient seem to be as clear and plain to him as the external, but just how he obtains such a marvelous knowledge of his patient's condition, no one seems to understand, or be able to describe. That he does it in every case, no one doubts. Some seem to thing that the Doctor is gifted with supernatural powers; that no ordinary man could give such remarkable descriptions of strangers as he does. Be that as it may, this curious feature of his practice alone, is bringing him thousands of grateful patients; many of whom declare that his wonderful diagnostic skill and power in performing cures is

Positively Miraculous

The most skeptical are convinced and astonished.

Sufferers from Nervous Debility and Blood Diseases and complaints of either sex, requiring Special Treatment, cured in a few days or weeks without interfering with their work.

HUNDREDS OF MEN.

are afflicted with Seminal Weakness, Spermatorrhea, and Impotency, brought on by various causes, such as veneral excesses and diseases, occupations requiring a straining and stooping position, and especially the unnatural abuses of the sexual functions, the SOLITARY HABIT so often indulged in youth without knowing the terrible results.

Young man, Stop! Look this matter square in the face; think, consider what you are doing. Waste no time and money with ignorant or unskillful pretenders, who trifle with you month after month, treating SYMPTOMS only, with Bromide of Potassium compounds that impoverish your blood, deadens your nerves; stupefy your mind and relieve nothing—but your pocket book. Such poisonous drugging

MAKES YOU WORSE.

We can prove by hundreds of cases on record that bromide mixtures so often given for fits and lost manhood, seldom, if ever, cure fits, but almost always DESTROY MANHOOD and RUIN the MIND. Bromide of Potassium and Gelseminum are the main remedies used. Given for seminal weakness &c., to control SYMPTOMS while you take them. They never touch the CAUSE or effect a CURE. The unhappy victim goes on from bad to worse, reaching at last the most deplorable and horrible condition of humanity: imaginable. A Lost Mind—a helpless idiot or raving maniac; made so by the action of these poisons on the blood and brain, as well as by the disease. In fact, these remedies are worse even than the disease. Let Them Alone.

In all such cases we gurantee a speedy restoration to healthy, strong and vigorous manhood. Microscopical examinations of the urine made in all these cases. We make NO EXPERIMENTS and very few failures. We guarantee all curable cases.

Electric Medication and the NEW METHOD TREATMENT enables us to effect WONDERFUL CURES.

DISEASES OF WOMEN.

Every maid, wife and mother who has dragged an aching back and head through weary years; deserves our utmost sympathy and may depend on getting the most careful, skillful and successful medical treatment that can be given. Twenty years study and practice in diseases of women, both in Europe and America, has convinced me that eight out of ten American women suffer from some of the following complaints peculiar to the sex: Irregularity of the menses, too free, too scant, or painful, leucorrhea, (whites,) vaginitis, metritis, endometritis, ulcerations, displacements, falling of the womb, anteversion, retroversion, lateroversion, ante and retroflexions producing constipation, or produced by it; uterine and ovarian tumors, fibroma and sarcoma cysts, cancers of the womb or its appendages, frequent or scanty urination, with burning, smarting or itching tenderness, soreness, bloating and backache, eruptions of the skin, pimples, blotches, brown spots, yellow spots, red spots, greasy, pasty, waxy, or chlorotic appearances, and discolorations of the skin, with blue or dark circles around the eyes. Nature is true: she displays her signs and signals the approach of the grim enemy of life, disease. Look sharply into your mirrors; be not deceived, for these signs and symptoms mean weakness, nervousness, irritability, wakefulness, indigestion, headaches, forgetfulness, partial paralysis, sterility, melancholy, hysteria, wasting, consumption, catalepsy, St. Vitus dance, fits, derangements, insanity and suicide. Many ladies, especially young ladies, are so timid and extremely modest that they hesitate and put off calling on a physician until they are past curing. Mothers should learn more of their daughter's ailments, banish from their minds a dread of examination, for ladies do not have to tell their complaints to Dr. Manville; no unpleasant questions are asked; no objectionable examinations are made; no painful local treatments are given. In most cases ladies can use our local remedies themselves, where it is needed.

While Dr. Manville was on the Medical Staff of the Woman's Hospital, in New York, he was especially noted for great success in treating all diseases peculiar to women.

For the weak and feeble women, and those not in a condition to rear a family, Dr. Manville's "Germicide and Women's Friend," will prove a blessing indeed. Nearly three thousand ladies have called, or sent for it, and used it successfully. It is the greatest remedy known in Europe or America for "Female Weakness." Call now, before it is too late.

Extraordinary cases require extraordinary skill and experience.

Health and strength will make you happier and more independent than money. Study your own interests. Delays are dangerous.

Our terms will be made satisfactory to all: charges as moderate as we can in justice to ourselves and patients make them.

Consultation and examination free. Office hours 8 a. m. till 9 p. m. Office parlors at 32 East Wayne street.

A day or two ago the eastern producers advanced the price of coke 50 cents per ton. At the anthracite mines the price advanced 25 cents per ton, and the rate from Buffalo to western points went up 10 cents per ton. At the Jackson coal mines the price advanced 25 cents per ton, and at the Indiana coal mines 20 cents per ton. To make the matter worse, there is no Pittsburg coal on the market, the river for months past having been too low to enable its shipment down in barges, and, what is still more serious with this advance in prices there is a scarcity of coal such as has not been known since the article came into general use. Railroads and manufactories, as well as the public generally, have trouble in getting their orders filled, and the situation is becoming more and more serious. The supply of Indiana coal has not been so light on the first day of November as this year in the remembrance of the oldest dealers. Strikes have been one cause and another is the drought. Water is so low in the mines that the railroads are hauling water to the machine mines to enable them to continue operations.

STOLEN CLOVER SEED.

Adam Link Gets Into Trouble Through Freemont Springer.

THE SENTINEL yesterday briefly noted that a fellow was detected in the act of selling stolen clover seed to S. Bash & Co.

The thief is Fremont Springer, alias Schilling. He worked near Leo for a farmer named Rosenberg, and from him he stole a lot of clover seed. He brought the seed to the city early yesterday morning and sold it to S. Bash & Co. The fellow had the order in his hand when Rosenberg's brother appeared and identified the cloverseed.

Springer fled and the officers could get no track of him. Pretty soon Adam Link, who keeps a box factory on East Wayne street, put in an appearance with the order. He explained that Springer gave it to him for an old debt, but this did not satisfy the officers and Sheriff Viberg locked Link up.

He is related to Springer by marriage, but later Prosecutor Robinson ordered his release as he disclosed the whereabouts of Springer.

He was followed in grand arguments by Messrs. Every school teacher, scholar and person studying geography should attend to-night and hear a returned missionary lecture on Australia and New Zealand. This lecture is free and the lecturer will describe his lecture by maps and charts of these countries. Rev. Blaney invites you all to attend all these meetings. Will close this evening with a temperance meeting, as usual. Come.

SAM SMALL'S BROTHER.

Why Did God Make so Much Outdoors?

Two Women's Experiences.

"Sam Small, Evangelist!"

The proverbial philosophy of "Old Si," the venerable plantation darkey, who gave to the world through the medium of Small's pen maxims of worldly wisdom, clothed in a verbiage of irresistible humor, has found a permanent place in humorous literature.

Great surprise was shown when it was announced that he, having been converted under the ministrations of "Sam Jones," would become an evangelist.

At first thought, a humorist in the pulpit seems incongruous. Is it really so?

No doubt the mere buffoon attempting to turn men's hearts to solemn truths would meet with only contempt. But truth is not hidden in gloom. Genuine humor frequently illustrates and fastens in the mind bits of wisdom that would otherwise pass unheeded.

In his eulogy of Henry Ward Beecher, Rev. Dr. Parker says: "Whenever he came among men, he brought June sunshine and music, and made even desponding and surly men feel that a fuller and warmer summer, 'the Kingdom of Heaven,' itself was 'at hand.'" That is genial christianity.

Mr. Small belongs to a witty family. He has a brother connected with Armoy Knox's and "Fat Contributor's" *Texas Siftings*, a paper which has had phenomenal success in the field of humorous literature. Mr. Frank A. Small is the present representative of that popular paper in England, and, like his distinguished brother, he takes a deep interest in the welfare of other people.

Under date of 48 Porteu Road, Kensington W. London, Eng., Sept. 27th, 1887, he writes "While at Yalding in Kent yesterday, I met Prof. S. Williams, Head Master of the Cleaves Endowed school. In the course of conversation about America, Professor Williams remarked that Warner's safe cure had been of great benefit to his wife, who had been much troubled with a disordered liver. Warner's safe cure (an American preparation) was all she had taken, and she had experienced none of her old trouble for some months past.

Mrs. Annie Jenness Miller, editor of New York *Dress*, and a very popular woman in the fashionable world, says in her own magazine for October: "Warner's safe cure is the only medicine I ever take or recommend. In ever instance it gives new energy and vitality to all my powers." This distinguished woman also says that for ladies this great remedy is "peculiarly effective."

Sam Small is likely to succeed as a moral teacher. When we remember how near together in human nature lie the fountains of laughter and of tears, the deep effect his discourses must have on the masses can easily be imagined.

"Why did God make such outdoors?" exclaimed a little girl. We know not. He has made it and we should grow in it, broad, charitable and genial, judging everything by merit, not by prejudice.
